1. This plan should only be used for its original purpose. Aimcon Surveys accepts no responsibility if supplied to any other party than the original client.

2. Where underground services are shown, information has been determined without man entry. Whilst every effort has been made to correctly identify services any areas critical to the future proposal should be checked.

3. Tree and hedge species have been identified as accurately as possible and should be treated as indicative. If accurate identification is of critical importance it is recommended an arborist be consulted.

4. Survey information is as result of measurement to existing features and does not imply legal ownership of boundaries or land divisions. Where boundary alignment lines are added to the survey drawing and are taken from legal documents or other information supplied they are done so within the constraints of drawing quality and scale. They are provided on the basis of opinion and do not imply legal contract.
