About the consultation

What is this consultation about?*

Reconfiguration and recommissioning of services for the treatment and recovery of drug and alcohol addictions. As the current contracts are approaching their end, Northamptonshire County Council (NCC) will be recommissioning the treatment and recovery services for drug and alcohol use. We will be aiming to have a new service in place between October and November 2017.

The current services, which were originally developed in co-production with service users, have been positively supporting, training and advising people since 2012.

Whilst this service has been successful, in order to ensure that the new services are both cost-effective and efficiently run, the following elements all need to be considered as part of the reconfiguration (e.g. the way that services are provided):

- Including provision for mental health treatment alongside substance misuse services
- Bringing young people's treatment services into one service
- Applying the service name 'Substance 2 Solution' (S2S) to the whole treatment and recovery service
- Embedding the full range of treatment services into one 'Single Point of Contact' (SPOC)

The 'co-production' of services, and working with service users to ensure the best possible outcomes, is very important for the county council. As such, we would like to consult all service users to find out their views on the points listed above, as well as obtaining the recommended improvements.
