CHILDREN AND YOUNG PEOPLES SERVICE**

SUPPORTING STATEMENT FOR

**TWO SINGLE MOBILE CLASSROOMS AT
SPONNE SCHOOL BRACKLEY ROAD
TOWCESTER NORTHANTS NN12 6DJ**

The above school currently has two single classrooms that are used for general teaching. These classrooms are in a very dilapidated condition, do not meet current standards and are past economic repair.

Due to the Northampton schools review reaching its final stages; we now have surplus mobiles in good repair that meet current standards. It is therefore proposed to replace the existing mobiles with two single classroom mobiles. The existing mobiles will be removed from site. The new mobile, building No 1 will be sited slightly forward of the existing to meet current Building Regs. Building No 2 will be sited on the existing footprint of the current mobile it will replace.

With the expansion of Towcester in general and the popularity of the school there is a continuing need to provide temporary accommodation on the school site. Long term permanent accommodation will need to be provided.
