Notice:
- The bracket should be installed on flat wall
- The wall must be capable of supporting over 3 times as much as the total weight of the camera and the mount.
- The maximum load capacity of the bracket is 4.5KG

Model Suitable:
DS-2CC51D3S-VPIR, DS-2CC52D5S-VPIR, DS-2CD2112(D)-(I), DS-2CD2132(D)-(I)

Installation Step:

1. Choose appropriate wall to install the bracket and thread the cable
2. Fix adaptor to bracket and thread the cable
3. Screw up and complete the fixation of adaptor
4. Take off lower dome, inner module and lining
5. Complete wiring and fix dome module to cap
6. Fix the dome module and adjust the angle of view
7. Install lining and lower dome to dome module and screw up
8. Installation complete

Note: The actual bracket may vary from the picture above.
