5. Condition(s) - Removal/Variation

Please state why you wish the condition(s) to be removed or changed

Since the original grant of planning permission the control over emissions to air have become more stringent at the Environmental Permitting stage. The permitted stack height (at 25m) is considered inadequate for Permitting purposes and does not demonstrate Best Available Techniques (BAT).

An increase to 35m will result in improved air dispersion and acceptable for human and ecological receptor exposure.

If you wish the existing condition to be changed, please state how you wish the condition to be varied

See accompanying Planning Design and Access Statement.
