Schedule of conditions proposed to be amended

Consent 15/00087/WASVOC

Variation of conditions 8, 22 and 23 of planning permission 15/00068/WASVOC to allow the disposal of inert material from essential highway maintenance works.

Condition 8

Excluding construction vehicles the total number of Heavy Goods Vehicle movement to and from the site shall not exceed 300 per day (150 in and 150 out) based on a weekly average calculated over six working days. No HGV movement shall take place outside of the permitted hours of working with the exception of 10 additional HGV movements (5 in and 5 out) per hour for night time operations as approved under condition 22(24).

Condition 18

Night time deliveries of inert waste and associated works shall be undertaken in accordance with condition 7 and 8 and if any complaints are received within 6 months of the first “night time” operation being undertaken the operator shall undertake night time noise monitoring during the operations within no more 10 days of the complaint (unless an extended period is agreed in writing) and submit the results to the Waste Planning Authority forthwith. If it is demonstrated that the permitted noise level for night time deliveries in with condition 19 (Below) have been breached then night time deliveries and associated operations shall cease with immediate effect and these activities re-appraised and an alternative scheme of working shall be submitted for approval in writing by the Waste Planning Authority. The amended scheme for working shall be implemented in full and approved in writing prior to night time deliveries recommencing.

Suggested amendment (Condition 18)

Night time deliveries of inert waste and associated works shall be undertaken in accordance with condition 7 and 8 and 24 and 25 if any complaints are received within 6 months of the first “night time” operation being undertaken the operator shall undertake night time noise monitoring during the operations within no more than 10 days of the complaint (unless an extended period is agreed in writing) and submit the results to the Waste Planning Authority forthwith. If it is demonstrated that the permitted noise level for night time deliveries in with condition 19 (Below) have been breached then night time deliveries and associated operations shall cease with immediate effect and these activities re-appraised and an alternative scheme of working shall be submitted for approval in writing by the Waste Planning Authority. The amended scheme for working shall be implemented in full and approved in writing prior to night time deliveries recommencing.

Condition 19

Night time deliveries of inert waste and associated operations shall not exceed a maximum noise level of 45 dB $L_{A_{max}}$, 5 minutes at the façade of the nearest noise sensitive properties.

Suggested amendment (Condition 19)

Night time deliveries of inert waste and associated operations shall not exceed a maximum noise level of 45 dB $L_{A_{max}}$, 5 minutes at the façade of the nearest noise sensitive properties.
Condition 24

The delivery of waste into this application site shall be confined to between 07:00 hours and 18:00 hours Monday to Fridays (with the exception of the night time delivery only of materials from essential highway maintenance works) and 07:00 hours to 16:00 on Saturdays, Sundays and Bank Holidays, excluding Christmas Day, Boxing Day, New Year’s Day and Easter Sunday.

Suggested amendment (Condition 24)

The delivery of waste into this application site shall be confined to between 07:00 hours and 18:00 hours Monday to Fridays and 07:00 hours to 16:00 on Saturdays, Sundays and Bank Holidays, excluding Christmas Day, Boxing Day, New Year’s Day and Easter Sunday.

In addition night time working Monday to Fridays shall be permitted for

a) the delivery of material from essential highway works for up to a maximum of 21 days per annum

b) waste delivery into the covered building

with the limit of vehicles movements restricted as per condition 8.

Condition 25

Waste recycling operations and associated activities shall be confined to between 06:00 hours and 23:00 Mondays to Fridays (with the exception of the night time delivery only of materials from essential highway maintenance works) and 07:00 hours to 18:00 hours on Saturdays with no such works undertaken on Sundays, Public or Bank Holidays. Within these hours no waste movements or processing shall take place outside of the permitted waste recycling and material building and extension, between the hours of 06:00 – 07:00 and 18:00 – 23:00 hours Monday to Friday.

Suggested amendment (Condition 25)

Waste recycling operations and associated activities shall be confined to between 06:00 hours and 23:00 Mondays to Fridays (with the exception of the night time delivery only of materials from essential highway maintenance works) and 07:00 hours to 18:00 hours on Saturdays with no such works undertaken on Sundays, Public or Bank Holidays. Within these hours no waste movements or processing shall take place outside of the permitted waste recycling and material building and extension, between the hours of 06:00 – 07:00 and 18:00 – 23:00 hours Monday to Friday.
Consent 15/00086/VOC

Variation of conditions 7 and 8 of planning permission 15/00067/WASVOC to allow the disposal of inert material from essential highway maintenance works.

Condition 7

The delivery of waste into this application site (with the exception of the night time delivery of material from essential highway works for up to a maximum of 21 days per annum) shall be confined to between 07:00 hours and 18:00 hours Monday to Fridays and 07:00 to 16:00 hours on Saturdays, Sundays and Bank Holidays, excluding Christmas Day, Boxing Day New Year’s Day and Easter Sunday.

Suggested amendment (Condition 7)

The delivery of waste into this application site shall be confined to between 07:00 hours and 18:00 hours Monday to Fridays and 07:00 hours to 16:00 hours on Saturdays, Sundays and Bank Holidays, excluding Christmas Day, Boxing Day, New Year’s Day and Easter Sunday.

In addition night time working Monday to Fridays shall be permitted for

a) the delivery of material from essential highway works for up to a maximum of 21 days per annum

b) waste delivery into the covered building

with the limit of vehicles movements restricted as per condition 12d.

Condition 8

Waste recycling operations and associated activities shall be confined to between 06:00 hours and 23:00 hours Monday to Fridays (with the exception of the night time delivery only of material from essential highway maintenance works permitted in Condition 7) and 07:00 hours to 18:00 hours on Saturdays with no such works undertaken on Sundays, Public or Bank Holidays. Within these hours no waste movements or processing shall take place outside of the permitted waste recycling and materials building and extension, between the hours of 06:00 – 07:00 and 18:00 – 23:00 hours Monday to Friday.

Suggested amendment (Condition 8)

Waste recycling operations and associated activities shall be confined to between 06:00 hours and 23:00 hours Monday to Fridays (with the exception of the night time delivery only of material from essential highway maintenance works permitted in Condition 7) and 07:00 hours to 18:00 hours on Saturdays with no such works undertaken on Sundays, Public or Bank Holidays. Within these hours no waste movements or processing shall take place outside of the permitted waste recycling and materials building and extension, between the hours of 06:00 – 07:00 and 18:00 – 23:00 hours Monday to Friday.

Condition 12

a) All Heavy Goods Vehicles shall be routed in accordance with the submitted Heavy Goods Routing Plan (received 21/10/2011) (with the exception of the night time delivery only of material from essential highway maintenance works permitted in Condition 7 which shall be
controlled in accordance condition 12b below) and no Heavy Goods Vehicles shall pass through the village of Rushton.

b) All Heavy Goods Vehicles involved with the night time delivery only of material from essential highway maintenance works shall be controlled in accordance with the proposed route in the supporting letter dated 11 November 2015 accordingly all vehicles delivering material during night time hours shall enter and leave the site to and from the north, along Oakley Road.

c) The importation of materials from essential highway maintenance works shall be restricted to 21 days in any 12 month period and the operator shall keep and provide a written log of the days this takes place upon written request of the Waste Planning Authority.

d) Heavy Goods Vehicles movements involved with the night time delivery only of material from essential highway maintenance shall be restricted to 10 per hour (5 in and 5 out) and the operator shall keep and provide a written log of the days this takes place upon written request of the Waste Planning Authority.

Suggested amendment (Condition 12)

a) All Heavy Goods Vehicles shall be routed in accordance with the submitted Heavy Goods Routing Plan (received 21/10/2011) (with the exception of the night time delivery only of material from essential highway maintenance works permitted in Condition 7 which shall be controlled in accordance condition 12b below) and no Heavy Goods Vehicles shall pass through the village of Rushton.

b) All Heavy Goods Vehicles involved with the night time delivery only of material from essential highway maintenance works shall be controlled in accordance with the proposed route in the supporting letter dated 11 November 2015 accordingly all vehicles delivering material during night time hours shall enter and leave the site to and from the north, along Oakley Road.

c) The importation of materials from essential highway maintenance works tipped outside of the waste handling building shall be restricted to 21 days in any 12 month period and the operator shall keep and provide a written log of the days this takes place upon written request of the Waste Planning Authority.

d) Heavy Goods Vehicles movements involved with the night time delivery only of material from essential highway maintenance shall be restricted to 10 per hour (5 in and 5 out) and the operator shall keep and provide a written log of the days this takes place upon written request of the Waste Planning Authority.

Condition 31

Night time deliveries of inert waste and associated works shall be undertaken in accordance with condition 7 and 8 and if any complaints are received within 6 months of the first “night time” operation being undertaken the operator shall undertake night time noise monitoring during the operations within no more 10 days of the complaint (unless an extended period is agreed in writing) and submit the results to the Waste Planning Authority forthwith. If it is demonstrated that the permitted noise level for night time deliveries in with condition 32 (Below) have been breached then night time deliveries and associated operations shall cease with immediate effect and these activities re-appraised and an alternative scheme of working shall be submitted for approval in writing by the Waste Planning Authority. The amended
scheme for working shall be implemented in full and approved in writing prior to night time deliveries recommencing.

**Suggested amendment (Condition 31)**

Night time deliveries of inert waste and associated works shall be undertaken in accordance with condition 7 and 8 and if any complaints are received within 6 months of the first “night time” operation being undertaken the operator shall undertake night time noise monitoring during the operations within no more than 10 days of the complaint (unless an extended period is agreed in writing) and submit the results to the Waste Planning Authority forthwith. If it is demonstrated that the permitted noise level for night time deliveries in with condition 32 (Below) have been breached then night time deliveries and associated operations shall cease with immediate effect and these activities re-appraised and an alternative scheme of working shall be submitted for approval in writing by the Waste Planning Authority. The amended scheme for working shall be implemented in full and approved in writing prior to night time deliveries recommencing.

**Condition 32**

Night time deliveries of inert waste and associated operations shall not exceed a maximum noise level of 45 dB L_{A_{max}}, 5 minutes at the façade of the nearest noise sensitive properties.

**Suggested amendment (Condition 32)**

Night time deliveries of inert waste and associated operations shall not exceed a maximum noise level of 45 dB L_{A_{max}}, 5 minutes at the façade of the nearest noise sensitive properties.
