

# Primary School Child Health Profile

## Wellingborough September 2018

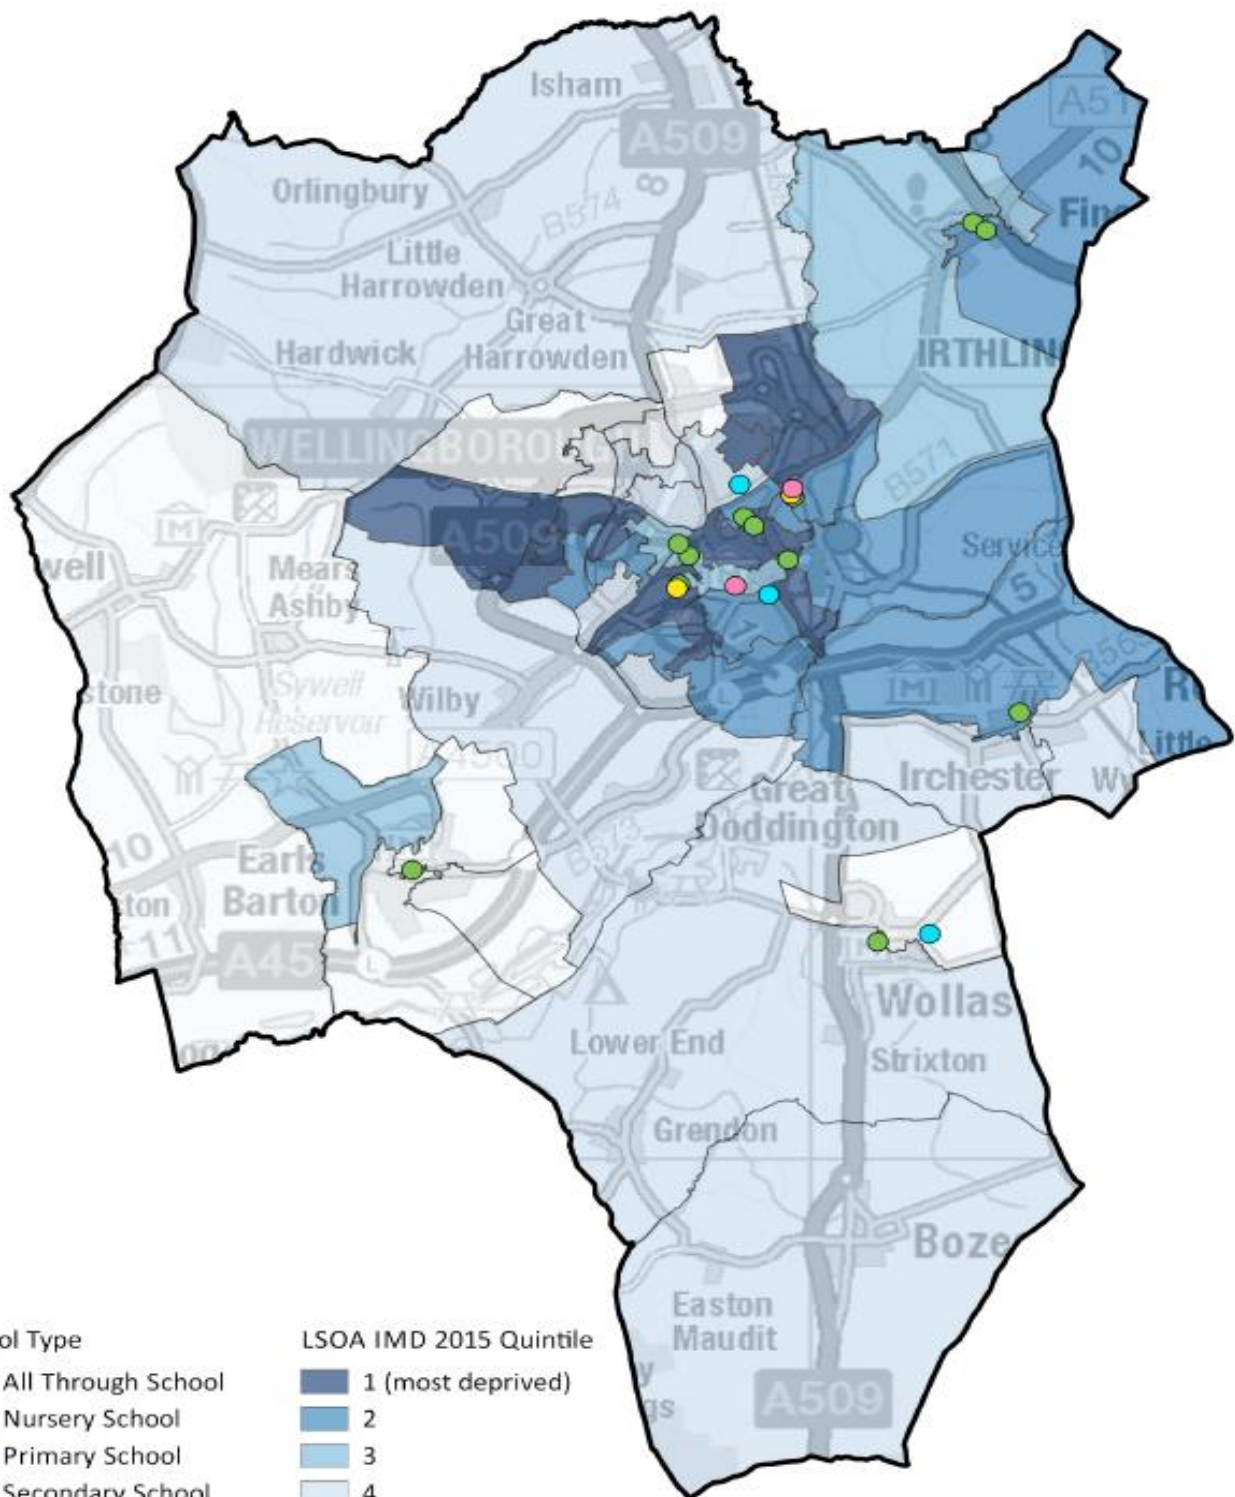

Wellingborough is either similar to or worse than the national England on all of the child health indicators included in this profile.

Wellingborough is significantly worse than the national average on the following indicators:

- Proportion of overweight or obese children in Year 6
- Proportion of children achieving 5+ GCSEs at grades A\*-C
- Proportion of pregnant women smoking at time of delivery
- Admissions to hospital for lower respiratory infections
- Admissions to hospital for intentional self-harm

# Area Map

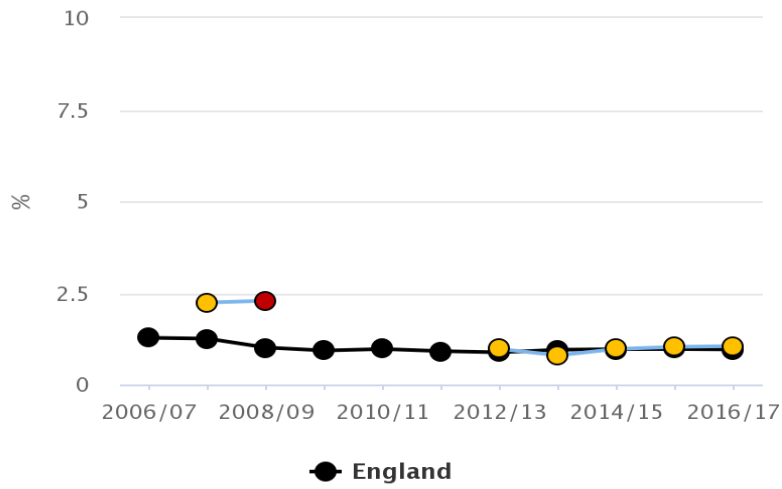

Map of school locations with LSOA IMD 2015 quintile rankings  
(1 being 20% most deprived areas nationally)

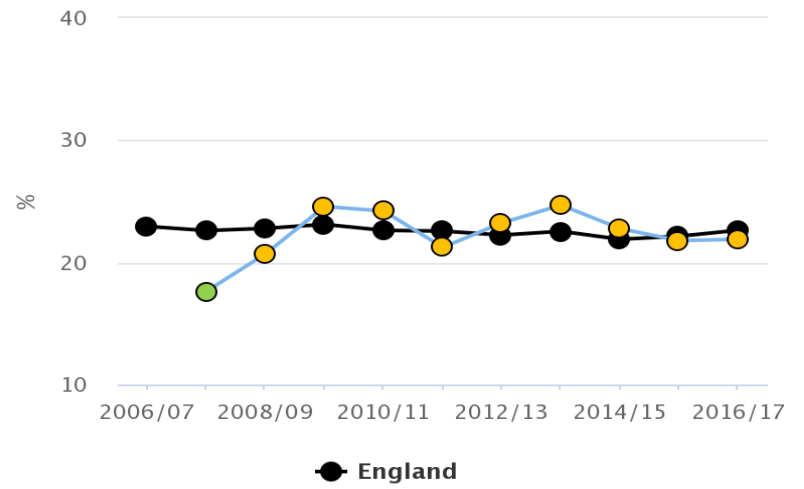

- | School Type           | LSOA IMD 2015 Quintile |
|-----------------------|------------------------|
| ● All Through School  | ■ 1 (most deprived)    |
| ● Nursery School      | ■ 2                    |
| ● Primary School      | ■ 3                    |
| ● Secondary School    | ■ 4                    |
| ● Pupil Referral Unit | ■ 5 (least deprived)   |
| ● Special School      |                        |

# Health Improvement

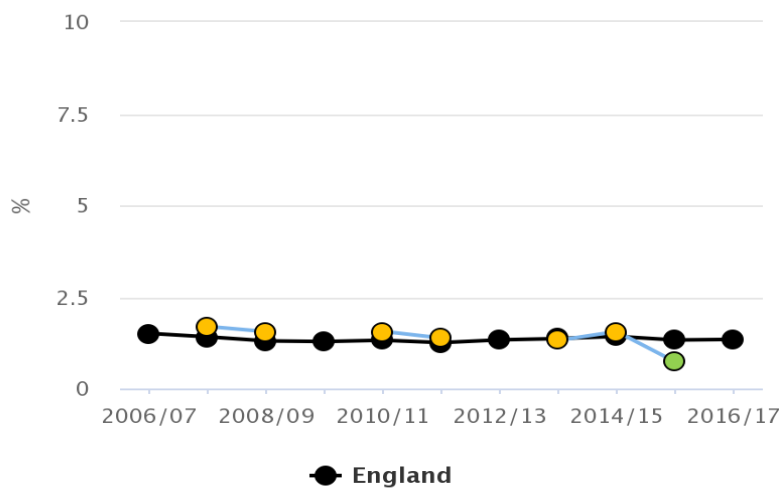

Reception: Prevalence of underweight – Wellingborough

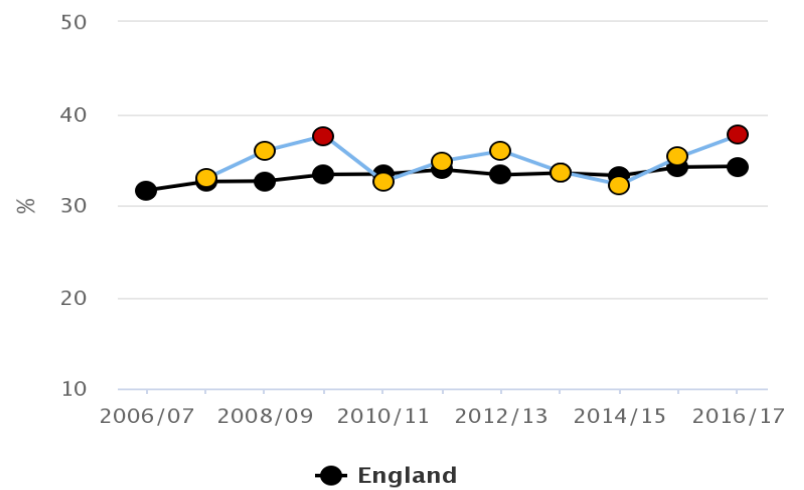

Reception: Prevalence of overweight (including obese) – Wellingborough

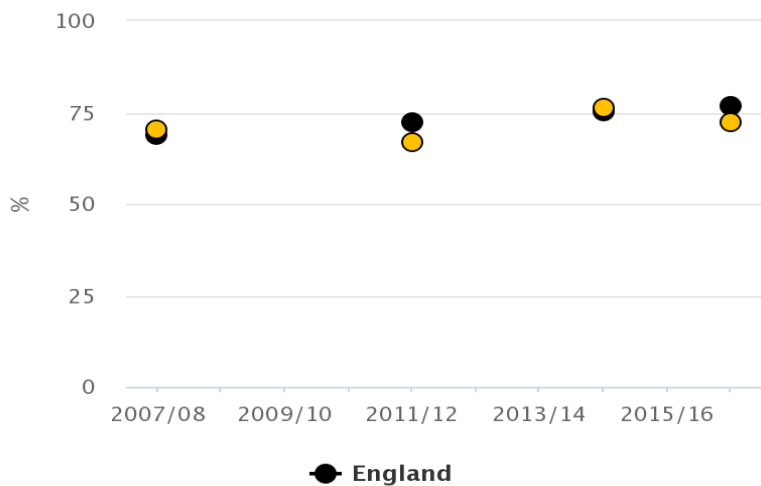

Year 6: Prevalence of underweight – Wellingborough

Year 6: Prevalence of overweight (including obese) – Wellingborough

4.02 – Proportion of five year old children free from dental decay – Wellingborough

**Key:**

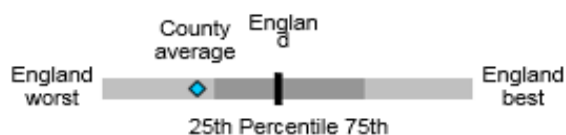

- Significantly better than the England average
- Not significantly different from the England average
- Significantly worse than the England average

# Child Health Summary

The chart below shows how the health of children in this area compares with the rest of England. This area's result for each indicator is shown as a circle. The average for England is shown by the black line, which is always at the centre of the chart. The range of results for all local areas in England is shown as a grey bar. A red circle means that this area is significantly worse than England, while a green circle means that this area is significantly better than England for that indicator. However, a green circle may still indicate an important public health problem.

## Key:

- Significantly better than England average
- Not significantly different from England average
- Significantly worse than England average
- No significance can be calculated

| Indicator                                                                | Year          | Unit             | Local Value | Eng Avg | Eng Worst | England Range | Eng Best |
|--------------------------------------------------------------------------|---------------|------------------|-------------|---------|-----------|---------------|----------|
| 1 Children in low income families (under 16s)                            | 2015          | %                | 16.2        | 16.8    | 30.5      |               | 2.7      |
